AI Research & Development

EXPERIENCE

V7LANCERS TECHNOPARK | Web Developer Intern
May 2025 – Jun 2025

- Built and deployed a responsive website for NewGen Dental Clinic, Chennai, serving 500+ patients.
- Developed both front-end (HTML5, CSS3, Bootstrap, JavaScript) and back-end (Python), delivering a production-ready client product.
- Reduced page load time by **30%** through code optimization and responsive design best practices.
- **Tech Stack:** HTML, CSS, JavaScript, Bootstrap, Python

CODE VEDA | Machine Learning Intern
Jul 2025 – Aug 2025

- Applied supervised learning for data preprocessing, model training, and predictive analytics using Python.
- Performed feature engineering, improving model accuracy by **~12%** using Random Forest and Logistic Regression.
- **Tech Stack:** Python, Scikit-learn, NumPy, Pandas, Matplotlib

PROJECTS

VOICE-POWERED COLLEGE CHATBOT | Main Project
2025

- Developed a real-time voice-based chatbot using Python, OpenAI API, and NLP for intelligent query response generation.
- Increased student query resolution efficiency by **~40%** through speech recognition integration.
- **Tech Stack:** Python, OpenAI API, NLP, Speech Recognition

AI-POWERED TASK MANAGER | Mini Project
2024

- Built an intelligent task management system using ML-based prioritization to automate and optimize workflow scheduling.
- **Tech Stack:** Python, Machine Learning, Flask

WEATHER FORECAST APP | Personal Project
2024

- Developed a weather application consuming a public REST API, displaying real-time forecasts with a clean responsive UI.
- **Tech Stack:** JavaScript, REST API, HTML, CSS

ACHIEVEMENTS

RESEARCH

- Co-authored a research paper on AI-Powered Innovation in Business Models using Random Forest predictive analytics and data-driven strategies.

CODING

- Actively contributed to open-source projects on **GitHub**, showcasing Python, web development, and collaborative coding practices.
