Phone - +91 9345272465 | Email - vmjaikishan@gmail.com | Location - Tamil Nadu, India

PROFESSIONAL SUMMARY

B.Sc. Computer Science (Artificial Intelligence) graduate with hands-on experience in full-stack web development, Python programming, machine learning, REST APIs, responsive UI development and application testing. Experienced in developing frontend and backend functionality, integrating APIs, debugging applications and optimizing performance through internships and academic projects. Strong foundation in Python, JavaScript, React.js, Django, SQL, Git, GitHub and AWS, with practical exposure to AI-powered applications and data-driven solutions..

CORE SALES & MANAGEMENT COMPETENCIES

- **Programming:** Python, C++, Java, SQL
- **Frontend Development:** HTML5, CSS3, JavaScript, Bootstrap, React.js, Responsive Web Design
- **Backend Development:** Django, Flask, Python Backend Development, REST API Integration
- **AI & Machine Learning:** Machine Learning, NLP, Predictive Analytics, Feature Engineering, Random Forest, Logistic Regression, OpenAI API, Speech Recognition
- **Data & Databases:** SQL, MongoDB, NumPy, Pandas, Matplotlib, Data Preprocessing
- **Cloud & Development Tools:** AWS, Linux, Git, GitHub
- **Software Development:** Full-Stack Development, API Integration, Debugging, Application Testing, Performance Optimization, Agile Development
- **Professional Skills:** Analytical Thinking, Problem Solving, Communication, Team Collaboration

WORKING EXPERIENCE

COGNIFYZ TECHNOLOGIES | Full Stack Development Intern **Jan 2026 – Feb 2026**

Remote

- Worked on full-stack web development projects, building responsive web pages and implementing frontend and backend functionality based on project requirements.
- Developed and integrated application features using frontend technologies, backend programming and REST APIs, ensuring functional and responsive web applications.
- Integrated APIs, identified and fixed application bugs, and performed testing to improve functionality, reliability and user experience.
- Gained hands-on experience in developing, testing and maintaining web applications within a project-based development environment.

V7LANCERS TECHNOPARK | Web Developer Intern **May 2025 – Jun 2025**

- Built and deployed a responsive website for NewGen Dental Clinic, Chennai, supporting a client platform serving 500+ patients.
- Developed frontend and backend components using HTML5, CSS3, Bootstrap, JavaScript and Python, delivering a production-ready web solution.
- Reduced page load time by 30% through code optimization, responsive design and performance improvement practices.

CODE VEDA | Machine Learning Intern **Jul 2025 – Aug 2025**

- Applied supervised machine learning techniques for data preprocessing, model training and predictive analytics using Python.
- Performed feature engineering using Random Forest and Logistic Regression, improving model accuracy by approximately 12%.
- Utilized Scikit-learn, NumPy, Pandas and Matplotlib for data preparation, model development and analytical visualization.

PROJECTS

Voice-Powered College Chatbot | Main Project **2025**

- Developed a real-time voice-enabled chatbot using Python, OpenAI API and NLP to generate intelligent responses to student queries.
- Improved student query resolution efficiency by approximately 40% through speech recognition integration.

AI-Powered Task Manager | Mini Project **2024**

- Built an intelligent task management application using machine learning-based prioritization to automate task organization and workflow scheduling.
- Implemented the application using Python and Flask, integrating ML logic into a web-based task management workflow.

Weather Forecast App | Personal Project **2024**

- Developed a responsive weather application using JavaScript, HTML and CSS, consuming a public REST API for real-time forecast information.
- Implemented API integration and responsive UI components to provide accessible weather data across devices.

EDUCATION

Manikam Ramaswami College of Arts and Science **2023 – 2026**

B.Sc. Computer Science (Artificial Intelligence)

CGPA: 8.2

LANGUAGES

Tamil, English, Sourashtra (Native)

CERTIFICATIONS

- Python Programming - GUVI Geek
- AI Concepts & Machine Learning - Infosys Springboard
- OpenAI & Microsoft Copilot Tools - Microsoft Learn
- AWS Cloud Practitioner Essentials - AWS Training & Certification

RESEARCH & OPEN-SOURCE CONTRIBUTION

- Co-authored a research paper on AI-Powered Innovation in Business Models, applying Random Forest predictive analytics and data-driven strategies.
- Contributed to open-source projects on GitHub, demonstrating practical Python, web development and collaborative coding experience.

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief. I take full responsibility for the accuracy and authenticity of the details stated in this resume.
